

Poems for everyone Life and other poems

When all men speak...

...silent I won't utter any words

Life

Experiencing sadness

Experiencing happiness

All changes are rapid like weather

Weather can't be defined

Struggling by all power to find out

But everything is complicated

Life is one difficult category

Holding many experiences

Life holds complexity so that people live it

Life is a servant

Life is a master

Without provision of its necessities

It leads you into effective fatal agony

That even the tears will rain tears

Life is complex

It holds everything

Life is a continuous story

No beginning

No ending

Live life the way it needs to be served.

Am relieved

Just saying the words

My heart felt normal.

From overload to overboard,

Am boarding a new life,

A life of peace love and joy

Happyfied, peaced and joyed of love.

Am just relieved with the abnormality

and bondage that I carried.

I'm free do to as willing

Am a free man

Am a man to see the

Sun again from the bailing

Hot sails of the wrong.

I was terrified of you abandoning me,

But a wise man thinks twice

And wisely choose the right option.

What is really friendship?

Right, as for us ascendable human begins,

We have five senses

We have more specialised things

That we have that always affects us

Feelings, emotions and passions always down lift us

A friend must not be so specialised

One day he/she will finally break your emotions and feelings

On the eleventh hour

Friendship is one tragedy that affects the majority

As we begin when we have friends

Stick to them like a magnet

But lately they abort us with a poisonous mindset

They encourage us what we are not into

What we don't feel like doing

What always punishes our hearts and lives for eternity life

They make us have a bite from Eve's forbidden fruit

Let us have fun

Smoking, proposing, drug abusing

Everything

That's how they get to you,

Friendship, friendship

Know who you are befriended with

Be careful

Be 100% sure of your status

Friendship, friendship

I encourage you to have friends

Not too close friends

Trust in God and in you

Put trust in you

Not you in trust.

Why about me?

You aborted me

You realised nothing

Why about me?

Is it that you really are?

Is it what you really do?

Is it how you really react?

Is it why you really aborted me?

I know now who you really are

Good for nothing

That's who you are

You are like a bitch dog

That runs from Cape to Cairo

Looking for male bitches

From dawn to dark moon

You never cared about other people's feelings

You never cared about other peoples

Dedicated love to you

You never cared about other peoples

Emotions and passions

Morning to night I realise my passion

By writing sorrowful dedication poetry

At night I never slept looking at the moon

Thinking that you the house glasses in my heart

It's always flooded like the Pacific Ocean

Just thinking that you broke our combination

You broke our friendship, our promise

Now I know you are mocked

Used up like a tissue paper

Who is the real me?

I am all in one men

When you hate me

You don't only hate one person

You dislike all of us

When you like me

You don't only like one person

You favour all of us

You don't know the real me

Who am I?

I am a small lizard

Like an animal that changes colours like characters

This is a chameleon

I am both bad and good

I am the rude

I am the honest

I am the loveable

I am the hateable

Who am I?

You people you don't really understand the

real me

I am who I am

I invade all men in one man

Which is me and creates one me

I have the strength

I have the mind

I do what I feel like doing that moment

Who is the real me?

What am I?

How am I who I am?

Why am I who I am?

This is the real me

I always got asked

How do you do what you do?

I always do what I do

Because I am who I am

The person I am

Honest, friendly, amiable, passionate

I am always free to anyone who likes me

This the real me

I am a guardian angel
I have purposes of being here
I am sent to be a tempter
I am sent to be a corrector
I am sent to be a deliver
I did my job
I see through people's eyes in failure
I tempted them
They failed
I corrected them
They refused
I delivered them
They reacted in a stupid way
So all I have to do is leave you alone
Live your own life
Do whatever you want
You will you get your reward
Smile with broad smiles
Welcome everyone with fake open arms
Do as you wish
Be the princess of the hypocrites
Do as you want
Pretend as you are friendly.

Am happy without you

Count how much I am happy
It's uncountable like the stars
I am more than happy
Happy than ever since in my life
I have never been delighted as I am today
You held my joy
You held my laughter
You held my love to friends
You took all what I had
It's such a shame
Seeing crocodile tears in your heart
You never said sorry
You never asked to discuss
All you wanted was arguments
Yet you don't know that you have commiseration
Know that everyone now hates you
Everyone can expose you if you offend them
The pity that I have for you
Your transgression is that much
Change your character.

On self

Being a servant like a just born tortoise under the sun
Is never my passion
My rebellion caused no chaos
Caused happiness
Beside my points was a great helper
Knower of my wills and inner troubles
The voice came sharply in my mind
My nerves shrank like I was rinsed in cold water
Trust in yourself
Help yourself while you rely on yourself
When the words making my heart feel cool
Like a cucumber in a soothing mixture
Of the North and South pole weathers
My dreams showed me a brighter future
This could be history to my back head generation
On self, on self
I kept those words in mind.

Truth in dreams

A gunshot can't start the run of your life
Living it doesn't need a palm to hold a purse for you
Life is an exam given to every learner
One has to gain good rewards
Slept with worries in heart but answers came in dreams
Besides, prayer was my every second's duty
Like a tireless ant
Finally answers revealed themselves in dreams to me
The truth is the dreams
The dreams is the truth
Dreams can be interpreted in any form of desire
Whether negative or positive
All is fulfilled if you are inspired in closement of eyes
If you have action in mind.

Not alone

Wandering on a white surface with wind
Like your partner is never joyous
But like walking on thorny path
Through the provability of my teathed tummy is available
I always wander searching for a life
Like an oasis Transvaal
Yet my heart bounces
Lashes like roaring thunder
My mind strikes like lightning
Cause a bright light burning deep in my soul
Am never let alone
Am a survivor
My life is a puzzle
You can't know the beginning
You can't know the ending
Blooming comes after shading like a Jacaranda
Am never alone
Someone who loves me
Someone who protects me
Is with me
GOD

It's me

Junior star makes himself disappear
Cause rain to fall
Why?
Being forsaken by your loved ones breaks a heart
Same as being left in the middle of nowhere
Being in the same boat
Broad smiles ticking
Warm hugs burning
Kisses soothing
But now my heart cracks
My love to you siblings can drain all oceans of the world
To fill the space in me
Sometimes you lie
But forgiving is like donating a stone to a mere child
Sometimes you snitch
I see through like a transparent building wall
Have I done an unforgettable transgression to your souls?
That you can't forgive me
These words I ask myself when I think of you
It's me am living my own life

Everything is alright

Happiness comes before heart beats
Good news flies in the thin air like floating butterflies
Bad news comes with trembling sounds like bee stings to your heart
I chose my life to be happy
People transform it backwards like anti-windmills
People advising me
Encouraging me while little did my heart react
Everything will be alright
Long time ago these words made me to have ego
Now in my presence love to hear myself say them
For my life is unfrictional like a gliding eagle
Experiencing such a life is a privilege
That needs to be specialised
It feels soothing like a deep nice sleep after a heavy tiresome day
What comes first comes last
Start with happiness end with happiness
Even a fool cannot commit that he would be normal one day.

Never seen it through
For the wall was a far opaque dimension
I wished to look straight in your eyes
You telling me stories
Smiling back to me in mind and in heart
This is what I really needed without rareness and bareness
I wished if you were functional
If you had not left me to where you have gone
Like a dam wanting to flood
My heart can't hold it anymore
Mama also says about you
Now I regret my imaginations
Both upcoming with my delays
Grandmother my love for you is inexpressible
For deep salt water is souring my words into hell cells
I pray if I could have another moment with you.

I sometimes fall but my wills pull up
I sometimes quit but my heart lash me up
My mind gears up
Education is something that is important
Some see and express it as a dwala
Some say it is like a river of candle wax
It flows and dries up in quarter way
Education is more than just life
It is life with knowledge
Wake up young youths
Raise your hands
Say yes to education
We all need prospering generations
Education, education
The finest flower of life
The human race
Let all of us be blessed in what we do
Rather than being called an apology to the human race.

Wide open like the sun
Why is this shameless race?
Two or more action on one or two people
This will be recorded as a mansion
When people set eyes
Shame, curses, bad willing spells
All cast into this race
Why is this shameless race?
Troublesome, heartbreaker, sacrificer
Of our loved ones
This race is shameless
Though it brings shame to the blameless men
Why do you males trouble females?
Life is equal
Life is fair
But why do you overpower others?
What a shameless race
Even the birds of the air can talk if they see like a flying ostrich
That acts like that when they see this race.

Fake love

Right never sees left
But that's what we try to force
What is right is unchangeable
What isn't right won't able
Fake love
What do you really want from me?
My eyes saw through your eyes
You don't need my love but something
Just a silly mistake
You will never let me talk even a little part
Like scratched disk does
My love I gave you
Now I retain it because of your colours
From green to silver in a reflection of the sun
You all were green snakes in green grass
Your ex-colour ran into perish
Fake love is sweeter in the first
Yet it ends bitter in the eleventh hour

Behind bail

The jail was my tail

All the planned trails

Filled fails

Claiming my freedom was not easy

The struggle that spared many lives didn't stop anything

It made a big change

Freedom is what I seek

Yet I found it

Falling down

Getting injuries

All was not a concern

That time I had energy to regain what I needed

What I strained for

Songs of encouragements and annunciations

Made a big history what people appreciate

Freedom is my partner to freedom

No one refuses freedom

It is the first step of living a joyous life

Life full of jubilees.

Respect

Respect is a perfect mindset
Given to people to use
People misuse it
It is a revolution for use
For use in devolution
The mind that a person is grown up
Binds and hides him in the outer word of the world
What really is respect?
A process of honouring every person every age
Without any limitations
These days youths limit their adult's full respect
Reckless youths make rueful age nower days
Respect is like a perfect set in a perfect mock
Respect is made to take an act upon people
Some lose respect because of troubles
But never trouble trouble till trouble troubles you
Nothing succeeds than success
Respect is a perfect fact of being an impact person
Who erudite from his personal disrespect
Disrespect is nothing
It mustn't interfere with young stars
Is an imperfect behaviour that leads to indirect mindset.

Peace

Peace, peace, peace

What is peace?

Something you should not miss

A secure trim life

A reverend thing that you should get in your personal life

Peace is like patience

Though it have some differences

How poor are they that they have no patience

Peace is something must exaggerate your heart

Make you experience all that need to be well

Peace doesn't keep that keenness in your heart

It is genial as sunshine

Ever hushed like midnight

How does it go for peace?

How, how, how?

Peace is nothing that needs impatience like a lover

For peace you must look for it like you looking for a needle in a hay stalk

Put not peace in trust

Put trust in peace.

Life, life, life

Life is one tricky thing

It involves many choices

Either you live or you die

Life is real

Life is earnest

Life is like a journey on a train

You experience many things

Choose whether to stop and stop forever

Choose to continue and keep on fighting

For a better and patient life

Life includes many things

Liberty, laughter, light, love, choices

Some say life is dear like a filament

Some say it is a nefarious thing telling the veracity

It doesn't need to endeavour and stop

You must make it inexorable

Life is full of culpable, rapacious noxious fouls and commiserations

Life wouldn't be easy and fun if it do not have ups and downs

Life is all about labouring and waiting

Mistakes in life should be more careful

While in the wrong path it is difficult to return to the right path.

Discipline

Discipline is a hint that is not dreamt
It is meant to be a movement of measurement of a person
We all discipline is like a plant or mint
That begins with sweetness inside
For you to practice discipline
You must be like ink
That is a link to a pink pickle
Discipline is a well thing to outstand for
Your emotion must be your information for your motion
Addition to your action is your correction for a position of your passion
Adoption to your devotion is your reaction
So discipline sometimes is a section of your revolution that sometimes takes a rejection
Don't let your discipline sink in the wrong waters.

Hope

Just from the word hope

You are answered what it means

H for happy

O for of

P for present

E for enjoyment

It is one life style needed by all of us

Everyone needs hope even the pope

Everyone needs it

It is not a deed to hid

Hoping and waiting is not my way of doing things

People always say but patience is always needed

Hope is the only good common to all men

Hope comes before hope

All kinds need hope

We mustn't be let down by our emotions

We must conquer them for they are yours

Don't let hope enter into a moment

Let a moment enter into hope.

Faith

We define it as fast action in trust of harmony

Faith is a personal thing or activity

Every person should involve in his/her lifestyle

Faith, faith, faith

If you don't have faith

Try to think how you are living

Faith is the living source for everyone

Without faith you can't get everything you wish

Faith, believing what you can't see

For you to get what you want first imagine

And have faith that you can get it and it will come to pass

Surely all I have seen teaches me to trust for what I have not seen

Having faith is a salutary thing

It brings peace, hope, life and respect.

Friendship only involves having fun and trusting each other
It needs to be careful as one can be confabulate about you
Making you feel culpable
Friendship is full of animosities
Noxious feeling and inexorable days
If you are not the veracity of friendship
You must know it won't last longer like the sun
It's a well know thing that when one friend sings and the other weeps
They have a common purse
Friendship is a mind ship between two sensible people
Who share problems
Ask each other for advice
Help each other in need
Never say never when one tries to break your relationship
Just let it fly into the firmament
Live your own life.

Prospering is understanding the meaning of earning in life

It leads to a better erudite personal life

For people to prosper there must be an extend doing

Of practicing proper life

It was and it is my dream

Relaxing, practicing and explaining what one need to prosper

It was never endless

Never fearless

Ever tireless

Never meaningless

Prosperity is a lucrative thing that makes you pass the misfortune to the other side

Prosper, prosperity and prospering are three valuable things

Values that are ineffable

They are mundane wide

Everyone seek for it.

Understanding

Understanding is one thing people misundertake and underestimate

Living your own life with your own lifestyle

Including everything without the style understanding is nothing

It is a whole dip tank full of darkness and ever mad netted

Understanding is the rising and increasing of knowledge

Not only in college or pillage but also in your privilege

To have a better lifestyle

It makes your ways to be firmament as the sky

The dressing, the walking and the talking

All shows that this person understands

Understanding, understanding, understanding

This tem or word is already giving itself sense

If you can't understand in life you will never succeed like success

For nothing succeeds like success.

Freedom is coming tomorrow
Covered with the dark clouds
People cried in sorrow of misery and captivity
Covered with the dark clouds
We always wanted to be free
We planned to reclaim what was stolen
And also covered with dark clouds
We as one but infinity we stood up to fight for freedom and prosperity
We exchanged gunshots, blades, spears and also the bad master
Fire
Freedom is all what we need
We sleep not but singing songs of life to relief our agony
In jail of captivity with the foreigners
Freedom, freedom we cried in tears
With more effort and energy we stood up in unity
We did what we had to do
To fight in anger to regain our black power
Our today ever freedom
Also our unity as one family with love
Freedom, freedom, freedom
Behind bars we cried
Almost and already we were not all in the same boat.

As for myself I am identified not in shape
I travel all the way up like am on a vacation to the space
Going to meet aliens
I am a magical instrument that survive humans
When attending my trip I'm invincible
I am special to everyone to seek me
I form a diehard lightning that strangle all
I am a good servant but a bad master
What am I?
People hate me when I come to rescue in form of rumbling thunder
Water running like cats and dogs
Beings favour me when they are in seek
They commence like they are on their mother's knees
Crying with crocodile tears
Osculating my feet sadly but fakery
They are many of us
We are all in the same boat
But we just give away ourselves
Who am I?
I am a little droplet
I survive humans
They need me in their bodies
They cry for me
Some back me and die
I feel pity for those
My life is a big tragedy
I am a little droplet.

Grace from God

I found my life
I found my future
I found my soul
I found my ambitions
Grace from God
I was once in a queer street
Deemed by the darkness of sins
Filled with nothing else
Filled with strong agony as the Mount Everest
I was tormented when in sin
Now look who I am by the grace of God
I was set free from the queer streets
I am no more in the same boat
Whenever I build castles in the air
I would struggle to archive
By the grace of God I succeeded my past struggle attempts
Even my past looks cannot be a comparison to my nower days
I saw the way
I saw the light
Before you pray, forgive
Before you ask, give
Grace from God, grace from God
Everyone seek for his grace, power, love and glory
Grace from God
Enlighten you and yourself.

Life

Growing up as a boy
I knew nothing as success and failure
Growing up as a boy
I knew nothing as ups and downs in life
But now it is all clear as a man barefooted
Life has both success and failure
It requires you to choose
If success you need to earn
If failure you don't have need to earn but relax
Life is unpredictable
It is magically surprising
Your life is your choice
It is full of hate and love
Before you hate, love
It is full of quitting and trying
Before you quit try
Live your own life
Suggest for you, yourself and your own good
Live a happy life
A life without interests in other people's hand
Live everlasting with one trustful person, God
Life, life, life
Life is full of ups and downs
It is like attending to a cow climbing upstairs
This cannot climb down stairs
Life is good when you are successful
Life is bad when you are unsuccessful

My Mother

Slept all days kept safe and warm
You wished me to be a boy
Prayed for me to be strong and healthy
Imagined me grown up
Now am grown up
Your entire wishes mama I grant them now
All I want is to return back your love in all
forms
Gratitude, success, life, love, and presents
I love you
You held me in your warm arms
Where I could not feel any war and coldness
I grew up in your peace
My mother, my mother
You always cared for my well being and future
I know that you have set a pace for me
A pace in the present future
My mother I will never forget
Forget how you talked and smiled to me
Smiled to me with a broad smile
When I did wrong you forgave me

Welcomed me with a broad smile
A smile like a sunflower opening to the sun
My mother, I grant you life
I pray for your life to be increased
I love you now, then and forever in my so
successful life
Thank you for your blessing
Your blessing that you offered me with
I bless you with all you need in life
You were hated by people for doing well
things
You loved
You cared
You welcomed
Welcomed them in your peaceful life
You kissed me on my right cheek
When I travelled without you
You hugged me like I was sick
Thank you for the love
Love you my mother

Before you receive, give
Nothing comes easy without effort
If you look forward to receive
First give to people and you will be remembered
Giving is a blessing given
If you give
Giving with all your heart
You receive what you deeply want
You receive peace, love, joy, wisdom
You receive many physical needs
You receive all that you deeply need in your life
With happiness and love to those who need it
Before you ask, give
Giving is a responsibility
Receiving is a privilege
When giving and gifting people things
Each one gains different things
It is because giving and gifting are different
Gifting is giving things that are expensive surprisingly
Giving is offering away things that you sometimes like
Give is get intentionally and vice-versa emotionally
It's better to stay empty handed in some feel obstacles
It's not good to let others struggles in misery and poverty.

Discipline

Discipline is honour

Discipline is respect

Discipline is life

Discipline is success

Discipline is a good master

Discipline is a good servant

A good servant that needs honour

A good servant that needs respect

A good servant that needs life

A good servant that needs success

To succeed you need discipline

To educate you need discipline

If you need it you must have honour

Honour to the adults

Honour to relatives and friends

If you need it you must have respect

Respect people the best way you have never done

Love them the way you love yourself

Keep them safe the way you keep yourself

Imagine a life without discipline

Children committing adultery, robberies and unlawful doings

Life is discipline

Success is fulfilled with discipline

All around success is what intelligent people have

Discipline involves all honour, respect, life

Love discipline

Real friendship

It is full of real self obstacles
It is full of fake self obstacles
People smile to you with broad smiles
Broad smiles like earth flowers exposed to sun
Nowadays I shiver no more
Fear not as I used to do
I used to cry in misery
Cry when exposed to people
I knew were life nucleus
Your intensions sink in dark waters
Sink because of the exploded atom
Life is like a vehicle wheel
It turns around from where it began to where it began
Is this what we call real friendship?
Real friendship is very rare
Very rare to be found in a world like this
People never think of others
Let's all be one as real friends and succeed ourselves
When befriended with someone
All he/she wants is you to be in the same misfortune

In the same misfortune with him
Instead of helping himself and asking for help
As friends you need real living
You need real peace
You need real loving
Real respect
Real talking
Real honest
Real smiling
Real life
What really is real friendship?
Real friendship is speaking and respecting your friend
Respect his/her obstacles
Respect each other's intensions
Respecting each other's ambitions
For you as real friends you need to be encourageous
You need to be ambitious
What really is real friendship?
This is a hard question
Some can't answer it.

Laughter of joy

I suffered the most inaccurate way

Even chameleons could change colours when they saw me
Even ran away as fast as lightning
I didn't know that suffering was a wrong attempt
People laughed at me in joy
Joy because of my misery
I converted their laughter into shame
I struggled to the last drop of my sweat
Sweated for me to succeed
Succeed and shame those who laughed at me
Morning now they knock at my glooming door
Knocking asking how I did it
Trying to drag me down
Not knowing that success found me
I found success
My eyes were closed
Now my eyes are open
Joining others surely intents into dying
Dying with others but one work of self in supplementary
Supplementary in one life
I am now a step further
Further from the discouragers
I am successful
The laughter of joy they had is now mine
I laugh in jubilee when I think of my past
Thinking why I never thought of this all this way long back
Laughter of evil is nothing
Future joy to the good is everything.

Blind in agony

When I found that you were cheating

I got upset
From that day when I got absent minded
I got blind in a dark ebony agony
Being blind
Blindness is a tragedy that is a misfortune
My heart is blind
My mind is fine
It remains mine
Mine although in the hour of nine
All I see is black and red strips
When the sun is glooming
Morning and night
All I do is hear but I forget to see
Blind in agony
I felt pity when I thought of myself
I wished to see one day
I knew the light would come again
I have been met and met again
Met not by coincidence
Met by reason
Being blind in agony is not a way
To show that you lose but a dark temptation that tempts you
See your strength whether it is strong or not
Seek light
Light is the joy of our lives.

Shouted for help

Help is a need

But need is not help
We all shout for help
For a friend in need is a friend in deed
Over a thousand of no one could help me
You only could help me
I asked for your hand
You doubled it
I was confused
You concluded the misfortune
I was found in a queer street
In the same boat the water that soaked me had dried
You took me into another dam full of water
I shouted for help
Realised the one I love
You rescued me
I never thought you had love over me too
Shouted for help
Help! Help! Help!
Why is it you people you never have a sorrowful mind
A sorrowful mind when you see me
I blessed those who helped me
I osculated those who helped me
Now why do I receive this?
Do I deserve this?
Help is not a trap
Help is a blissful attempt.

Reclaimed the stolen

We used to be in the same misfortune

Now am all alone
Abided by agony, stress and misery
We used to lack knowledge together
Now am all alone lacking the same thing
I now go to my fellow pals to ask for knowledge
Ask for other needs yet I did not reclaim the stolen
My friends reclaimed what belonged to them and got it
As soon as I had known about reclaiming
It took a lot of sweat and faith for me to receive
Receive what is mine
You reap your own yields
Yields that you have worked for
I reclaimed what belonged to me
My prosperity, love, peace, joy and life
My peace and life was once stolen
Now I own it again
It is in my own name
I reclaimed it
I used to eat with the dogs in rich people's yards
Now am blessed with my own good life.

Beautiful people

In thy world

Thy people entered into thy life

You remembered me
Yet I didn't even remember you
Loved me
Yet I hated you to my last blood drop
Cared for me
Yet I didn't care for you
Your love now is helpful in the future
Knowledge of you and me being close
Close as friends was out of mind
Your carefulness now is keeping me fit
Admired by many kinds just because of you
You put wisdom into me
Blessed me
You aren't of my kind or relation
But you remembered me
You don't know where I come from
Your love makes me introduce myself to you
Beautiful people
That's all I see
Everywhere I go
I see beautiful people
In the heart like an ornament tree
Everything am now is because of beautiful people
People that are like God sent angels
Life is now yet easy
Easy because of the beautiful people
May your love keep on like that
If you show decrease in your acts
You will be throwing stones to a glass house
I always wish to surprise you

All of you are many
Affording equipments for you madly overturning fortune
My love for you cannot be expressed or showed
Action speaks louder than words
I try to show my behaviour
Allow me
I will try by all means to show you
Show you what I feel.

Friendship

When am down your warm hands raise me up

When you are down my calm hands raise you from the dead

Sometimes you broadly smile like a sunflower in the sun

Sometimes you are serious and sad

Fights in words happened between us

I believe they strengthened the friendship

You always mind forecast me

Guide me when I plan badly for myself

Life to us in now like a rolling wheel on a steep descend

I never knew that you were

I didn't knew that I was

I now know after sadness

In between friends happiness always comes

Sometimes you gossip around my back

But actions are not meant

Friendship is like an activity

It is done alternatively

Looking at your eyes my eyes see nothing

They only see the future

When you blame love

You blame dignity

You blame friendship at last.

Desire

This is my desire

Desire to honour and succeed

Desire is a will

A will needed by everyone

I always struggle to aspire

To inspire

Inspire before I expire

Desires are great things to achieve

They may make something out of it

Desire and wish are different

Wish is something you want

A desire is your own will

Something achieved if you decide

Not only decide

Decide right choices

My choice is not your choice

I have my own will

Good or bad

Ambitious or failure full

My desire may anger you

If it's ambitious my will will be successful

Desire is a right

Desire is not a privilege

It is available to everyone

My desire is a fortune to human race

Not an apology to human race

Desires are supposed to be meant seriously

Desire can improve the universe

Desires can make great history

Knowledge

Everything in life doesn't come easy

To be successful you need a life saver

The life saver is knowledge

Life is knowledge based

All you touch and want also want knowledge

Knowledge has merits and demerits

In a penny of thoughts

Knowledge is good

It makes you get to know what you are doing

Make you get a fortune from what you are doing

When you sing you sing words of your knowledge

That makes people interested

When educated you get knowledge

Knowledge will brighten your future

You get to get what you want

Sometimes what you know can cause chaos

Chaos between you and other people

Chaos between other people themselves

So use your knowledge wisely

Don't make your knowledge make you regret your life.

I hate love

Love is a good move to those who understand.

Yet it is confusion to those who cannot manage it.

Love is an addiction; there is no way to keep out.

The acts in your blood veins.

I hate love

WHY?

Concentration, peace and hope for a brighter eradicatable life

Is all a failure just because of you love

The dark cloud is you

Sometimes you prevent me from the sun but at last you soak me with waters.

I hate love

WHY?

Sometimes when it overcomes one soul you will have trust at the first time and lastly you call be in the same misfortune with pain because of an untrustworthily soul that would be caught by an aggressive lion called love.

Love causes your heart to be dispersed that it may cause misunderstanding between two or more people.

Love doesn't only happen between lovers or two people in a relationship but also in families

Life is not all about love but self emotions that are concluded by devotion.

I was once in a good journey to a light and fun future but you love you caught me on my way and you reversed me to my past.

I am now clamped into the past and yet my future is no future because am not maturing

I was once interested in you, you love, but look now I am in this misfortune,

I was convinced to follow you

People saying, if you manage it will be easy but lastly I am an apology to my own life

I never loved love but I was told to do it and now look!

I hate love

I will never have a mate like LOVE.

I HATE LOVE!!!

Memories

Sometimes I smile

Sometimes I cry

Sometimes I feel happy

Sometimes I feel sad

When I look back at myself .

My life is full of ups and downs that

You may never understanding

My memories make me to pave a wonderous path

That I know obviously

It made me a priceful fortune

The memories that I sometimes remember

Make me feel like punishing myself for my act

Memories never kill.

I used to live by satisfying a human race

But I saw that one soul cannot be satisfied.

Memories are sometimes a fortune

And sometimes a regretion

When I combine all my past memories

I gain a life time

A life time is who, what, why I am who I am

Memories,

They actually consists of peace, respect, happiness, sadness and various emotions

When I think of my past memories I laugh

Cry of laughter

Memories are workable in hand in hand with imaginations

Sometimes you build your own world

In your own mind

Memories are healthy but sometimes they make you fall

Fall in a deep dull sleep of agony and tragedy
MEMORIES!

Truth is anger

Is truth a crime to commit?

You always ask and hear the truth

Lately you get angry like an evil spirit

An evil spirit caught by Holy Spirit

I can't adopt your anger

You are always angry at me

I say no words

When I am angry you cast me away like litter

Is really truth anger to all human souls or just you?

Please study your own behaviour

Then compare them

If just truth is anger

What about our friendship?

Day and night my heart and soul are filled with tears

Tears of sorrow

Yet you feel joyous in jubilee

Is truth anger?

This question must always click in one's mind

This question has many answers

Yes or no

Look like you like me

I can't utter any words

I really see the real you

You think this is the real me

I am because no one understands me

You believe your behaviour from truth you are told

I first believe, retrieve and then achieve

Lonely

In feeling of lonesomeness

I won't utter any words

My heart sends a message to my nerves

Nerves pass the message to my eyes

I always cry in sorrow

All that causes this is the lonely feeling

Day and night I struggle

Struggle for the absolute truth and solution

When am lonely people hate me

I will be very quiet

I am far away from the person I like

All I need is a comforter

Softer of my heart and spirit

My heart is bouncing and latching

Like a seeker I always seek for you

To set my eyes on you

I am lonely

My chicks are now fragile river stones

Sleeping with open eyes

Thinking that an angel might approach me

Thinking that the angel will make me happy.

Education

Education, education

What is education?

A passion to a movement of personal action

A position of a revolution in devotion

It is like a rose that pose to the sun

A rose shapelessly like a bun

But it is fun yet it needs to run

A good thing that helps up in knowledge

It doesn't glide like blight tough it bites

Bite like a mite in the night

It doesn't need to be limited

It needs to be knitted

To conquer it have a binding mind

Minding what you hand and your future

It doesn't need those fearful

It needs those who are tireless

Education, education, education

Leading human souls to what is best

Making what is best out of human

The fundamental resource

Commences at the mother's knees

Get educated

Get a better life.

Child protection

As a child I have my rights

Right to freedom

Right to live

Right to eat

Right to be loved

I struggle in my life

I do not love it

It is all about that

I am being abused

Abused verbally

Abused emotionally

All forms of abuse

I can't let the cat out of the bag

I am fearful

My rights are sinking in deep dark waters

My rights are fading in ancient sun

Tears of misery and agony flood my eyes

Flow down through my cheeks

I also have my responsibilities

All that is desired to be done by me

All those diffuse into the air

I have a responsibility to work

Work and keep myself

Keep myself healthy

Healthy by earning

Earning what I sweated for

Offer me my rights

I will be from cries of agony

As a child I need effective child protection

From the outside I smile as if I'm happy

My inside is full of salty waterfall

Colored red like blood

Protect me for my brighter predictable future

Without sadness but full of jubilee events.

My closest friend

"I will always be on your side" you always said

You are a heart breaker I didn't know

"I will never leave you in hard time" were your difficult lies

That echoed in my ears

Now am surprised am alone

Promises satisfied me lately

It was a deadly daily poison to me

You never ended promising

Promising like you fulfill

My love I showed to you

I think you never had a heart

In my thoughts I had a feeling

Feeling that our was so strong

Strong that even a strong wind wouldn't tear it apart

Now it is teared into bondage

I showed how I felt when our heart was torn

Torn apart into quarters by a minority

A minority you admired as your future

I offer you my forgiveness

The eyes of the minority are frightening your soul

My closest friend

Why forsake me in a bad mannered way?

The heart breaker

My closest friend.

Father

Like a sea waters are calm

Next come waves

Lastly comes calmness

My love to you is my anger

Anger in a crocodile tear

No one ever knows how I feel for you

My love to you is a parable

My love to you is available

Available like a shooting star

Struggling to impress but things suppress

You look for a way for me

To know that you are my amiable one

Yet I always eradicate

Father you are my strength

You guide me in a bumpy path

Our lives is like a two pea

Your struggles are for my goals

For a moveable troll that it gressed

You are always serious

Making me think you are angry

Yet you are planning my future

To be a well organized future

I know stress disorganize mindset

By doing wrong things

But I love you

Forgive you as you forgive me

I love you father.

My future

My mindset in heaven

In a like not in a full percent

Imaginations are life and never kills

Thoughtfully of my future I see lights

Lights surrounded by peace, happiness and love

As all things start with bitterness

End up with sweetness

It all needs one's sweat to a rip a good yield

A yield that cause a joyous celebration

No stress, no sorrow, no misery, no agony

All is well

I always daydream of my future

Full of happiness, friends, relatives

No excluding

A prosperous life

A life like flowing waters reflected by sun

Raising its sparkles

Torturing the devil's eyes

My future cannot be elaborated

Either by the past or the present

I wish people I like will be on my side forever

Be with me in paradise of my future

Paradise of my future.

Blind

How does it feel?

Being in your own world

World of sound

World of darkness

Life is never one sweet song

That's what people say

Things change like a chameleon

Chameleon of another colored surface

My life is neither ever joy nor ever sad

It is rather a mid way life

I had dreams of seeing the sun

That was my will

But encountering of dark light

Never allowed my eyes to open

The fault was not mine

It was rather nature's will

The superior can never be opposed

The will increase agony in my blindness

My prayers are always full of thanks to what I hold

To what I fight for

I hold I fight

Fight to have which is the hope

Hope to the bright sunshine again.

Unexpected friend

Before the sun shines

It gives a glimpse of brightness

A friendship is bitter when in anger

Sweeter in happiness

You seemed unfavorable to my type

Lastly you showed me that you are not like them

Those who wish me crawl instead of climb

You are one of the sunshine's favorable invartioner

The sun wishes to impress you more

Never let yourself down

When you feel like crawling defeat the wind

Protein up your legs for a better future

I will never fail you

Trust me nothing will tear us apart

My unexpected friend

Your name is the greatest

My unexpected friend

My thoughts told me wrong things

An unexpected friend

A friend you should long for

Long for everyday

Day by day

Night by night.

Fake friends

Friends are itch blooming

Appealing flowers that transplant one's soul

Transplant it to another life world

Trying to impress a partner is waste of time

It will be fakery done

If you are real friends without being impressed

Knowingly you climb up by the help of one's nature

Fake friends are affection to time

Fake friends cause heart breaks

Heartbreaks in a night out of stealing good memories

If one helps you and not feels ripe

He is not ready to be a real friend

Fake friends only smile to each each when they meet

Inside the wells of their hearts they feel abandoned

The cycle causes hatred among people when the cat is let out of the bag.

Confession of my heart

When I you I can't frown

I can use fewer muscles to smile

I encourage you when you fall

When I think I lost I found

Besides low beats my heart pound

Looking at you I underestimate you

I believe there is no one greater than the sun

My heart is intertwined with my heart

My thoughts I found

My thoughts never bind

My heart feels

Flash like lightning

Pound like thunder

Like a deeming light you change your moods

I am sorry for my heart

A heart that pity for people who love me

My heart never shed tears

This is the confession of my heart.

My dream

My hard work is never hid like chicken tears

But sweat overflows like melting ice

Heated by the sun while falling down

I work hard for my dreams to come true

My dreams are what my heart desires

I feel like a complete successful man

I like it when a doll is paused for sale

People greatly see me as a fool

Rumors cause chaos

Building castles in the air will help me

Make me proud of my sweet job

This will sadden the hypocrites

Under one's mandate will be once upon a date

What I believe in is what I achieve.

See through love

Like the skies your love is firmment

Not easy to see through to the heavens

You hold the ozone and the air is soothing

In times of hard you avoid pledges

We can't force an opaque object to be transparent

Your love presence makes me to be relieved

I love the warmth exerted by your arms

What can I say besides thanking you?

Your effort means life to me

Repaying you means my everyday receivals

Your see through love

Life with you is so easy

It's like cutting soap with a furnace knife

Your love is a vow to keep me safe

Keep me comfortable like king's walkman

Repays are refusals to your will

Yet blessing if they were to be paid I would own you much

Own you thousands

Emotions

Emotions are not a transgression

They are determined by how they are let out

How they are expressed while in favor of time

Emotions need a side look

Affecting on one side like a cucumber

Not just a cucumber

A cucumber in water connected to another in a freezer

Emotions bring awe

Latterly in a right decision

They bring joy and jubilee

Emotions are fond

Fond of bringing gracious heavens on earth

Devotion solves broken connections of emotions

Like a trait line on a railway line

Love is mine

Joy is mine

But less

Happiness is minus nine

Just need nine more to be unstoppable

Unstoppable and untouchable

Emotions are never sins

They are used in a good evitable way.

Smiles

Smiles never fade in my heart

My physical flesh is what makes my face frown

The sense of liking is building but you can't see it

Satisfaction is what I want to achieve in

See me and my hard tries

When I force a smile my face get wrinkles

Like an eagle gliding

It's its my choice since the air is that made it determine

Smiles were made not to fade

Smiles were not made to trade

Smiles were made to bring happiness in lives

I can't predict what's behind

Smiles are misused but some are true

Some are fake bribing smiles

Smiles changes

They are agents of unestimated miseries and troubles.

Repay

I believe and I can see

I will be the greatest

I will be prosperous

I will be your leader

I will be famous

I know my sweat doesn't call for mocking laughs

Laughs because of my sweat odor

What I wish for will pass

An owl doesn't just fly in the dark

It plans its pathway first

My can't actually understand my footsteps

The light will defeat the darkness

I will repay my encouragers and helpers

You will admire my life

A life that came in words of repay

What you gave me will be withdrawn

Twice as it was deposited

Life changes

Watch out

The sun therefore moves in and out.

Cheerful

Clap, clap, and clap

My heart and soul are lifted up

I even forget the past

Cheerful birds sing the whole day

Although the sun may burst

While they are high in the sky

Wishes will be granted like soil

Yet all souls will feel the glow

If still water would splash

Thoughts are always heard

But need for belief is in need pleaded

Cheerful, all I hear is noises full of murmuring

It's unchaste every spirit if thinking of itself

This cheerfulness is knocking door by door

It needs an open heart and more is yet to come

To receive for a joyous whole life

Cheerful like the heavens have fallen down on the quite earth

Cheer up and lift up your souls to the same group of cheeriness in happiness.

Check self

How can a cat comment other cat's paws?

At time it will have not checked itself

Before judging others judge yourself

Before loving others love yourself

Before forgiving others forgive yourself

Before correcting others correct yourself

Check self and then advise others

You may judge others wrong

When you are the one wrong

You may love others fakely

When you love yourself fakely

You can forgive others in words

You had not forgave yourself

You can't correct others when you can't see own eye

The sun will never reflect your eyes that you see them.

Life is like education

A journey of a complete family

A family in a car assembled in same group with life

Life is like a cyclist pedaling a bicycle

Experiences differ with ways

Along are pot holes, bumps and stops

When happiness comes you learn it

Feel it and sometimes lose it to someone

This life is a cycle

No beginning and no end on the other queer hand

Life needs no self relying

Life needs free people

Life is like education

When you notice happiness it's like you are recalling

Recalling the notes that you read

When you need to be serious

It's like when you are reading for an exam

Lots live life like education

Before you die live

Experience changeable weathers of motion

Afraid to lose you

By all gnashing of my teeth I try to price
The cherry a million times not to lose
Lose the white hair in my head.
My fortune my gold
You are my closest need
My sister, my light
You brighten my future
Purify my heart
You teach me life through competing
You teach me not giving up
At times you teach anger is the Southern winds
They blow past and the past ends as the past
It took me a fortune to reach someone like you
First I had no idea that you were anger to my life
You are always on my side touching my hand
Instead of my thoughts
When I'm beginning to creep you make me climb
How can I repay my closest friend?

Reveal your emotions

Even the sunflower opens one day

Reveal its true colours

What do you do in action?

Your eye in my face makes me smell a rat

Besides eye contacting reach me emotionally

Friendly tell me your heart desire

Truth breaks no bones but friendship

From the reaching give me your best

Best won't make you regret

You smiles allow dust when your eyes admire my action

I try to make sand tick open to everyone

But you won't let the cat out of the bag

Reveal your emotions to me

We will be in the same joyous or awe boat

How can a rat chase along a rat?

Revealing the truth to me needs your approach.

My desire

My desire needs fulfilment

Fulfilment will be my desire

All along satisfactory is what I earn

What I fight for everyday

But my desire is yet need to be released

My desire is caged in a steel box

I try by various means to receive

Receive what I look forward from you

Like a long lion run

I am tired of your promises

That never reaches a finish line of fulfilment

On the right hand you never have feelings

Opposite I true

Left is now right

I am kept by inferior personnel to you

Instead of thy to be a leopard leg

Your promises faded into thin air

Yet my promises won't diffuse all around

Fulfilment to what I have started will be great fortune.

Can't get you

A mintful taste

Like rogor diffusing in hot water

I can't get you

From happiness to sadness

From friends to haters

What does that mean?

Does it mean we shouldn't be friends?

Two pals twittering songs of joy

Day by day defeating temptations

Climbing up high was our daily achievement

It's both of us' faults

It's an unreasonable thing you did

Never give promises that you cannot keep

Prevention is better than cure

You promised now you can't cure the wound

You used to encourage me good

But devil appearances are syntomizing on thee

You plotting to heart me now

It's a cycle of windmill

I know you will seek me

You will commence on your leg joins

Give asks in forgiving your commiserations

I will apply open arms to you with good smiles.

This is me

This is real

This is me

My colours change rapidly like weather

I pretend to be a sunflower

That part is me

My actions are my actions

Do as I say not as I do

Similar actions break jaws

My attitude is a horizontal altitude

This is me

Adoption to it brings joy

Repulsion to it bring agony

Agony to the expose

Introduction into one's life is a great initiation

It means the cat in the bag should be kept tight

When dusk comes it doesn't mean dawn will not come

Every beginning has an ending

Our friendship will one day come back to pass

Get separated by God.

Hypocrite

Loud you're saying but belief is what can't be offered

You cannot give affordance to it

You are a green snake in green grass

Offer yourself trust and prestige

The force of nature has disagreed

Trust to you is like a burning tissue paper

You are a shame to the human race

They think when they catch you that's being a hypocrite

Words out of your mouth are blasphemy

It's your fault

You speak of the devil

He will gradually appear and associate with you

You hypocrite

You foretell lies

Talents you have

Great skills you have

Why are you a useless person?

Thrown away like blast furnace gold is hidden.

Friend like you

Day in day out

I seek happiness like this

No sorrow no frowning

How would the world be like this?

Life is like a flowing river at ease

That's what I desire but comes and go

Joy is important in life

It changes many things

When joy appears in my heart I got everything

Friends like you are like angels sent by God

You help me loosen my burdens

Let me walk loose

In times of sorrow you comfort me

Make me feel jubilee

Friends like you

I need you but you come and go.

Strong friendship

In life I have never seen something bond by superstition strength

In the beginning I could not see through this bond

I seek for it once more though I had sought it and lost it

It seems like a cowardice locust

Afraid and feeling shameful

As ancient as the sun our friendship shall be

As strong as diamond our friendship shall be

Friendship with no fight is never strong

It is proven to me that admitting is a great warrior

Strong true friendship is what I seek to regain

What I seek to be happy in life is true friendship.

I am sorry

I know I messed

Nothing can now be fixed

I would rather fight two bears

With the tiniest finger of my hand

Only to restore what belongs to me

Three words make you receive blessings

You will shine if you accept

Curses will come your way if you deny

The three words I would like to release

I am sorry

This does not mean am inferior

But a man who never admit is never corrected

Life will never be at ease to him

I am sorry are the words I can pass out now

I hope twittering and ululating will favor me after your response.

My hair

The light favors me like a chlorophyll green tree

How black it is?

When the temperature is high

Waterfalls run down steep stone

How long is it

Its shining crystal

It brings beauty to the environment

People want to destroy it

Why?

How in love am with it

As clear as frozen ice

Joy makes it perform colorful dances

It is steady

As silent as a flowerful sweet love

How clean is it

I like it

It makes me whole

My hair

How black it is

How long it is

I'm in love with my hair

Always clean

It is what a complete man holds

Choices differ.

My love to you

When I set my eyes on you my heart burns

Pounds like nut and drum beat sounding loud

My love to you is big and invincible

I would like to offer love glasses

You would prove yourself wrong

See that the love breaks the ozone layer

Cause direct reach of the sunlight of love

Joy and success is what I foresee when I touch your hands

Your warming chest in connection to mine

I feel your heart pounding in jubilee

Your smiles make my voice gentle

When you set your voice out my soul feels happy.

Pride

From heaven to earth

You fall in flowless manner

Land in tormenting way

The sun bursting through the body pores

From joy to sadness

It fades away like a video effect

From peace to sorrow

It declines like an eagle

That died while gliding in the air

Sunflowers without sunlight

With artificial like wastes seeds

Life is all about realness and greatness

Pride commits a transgression

That is great and unforgettable

Live your own like life

Your own life of joy

Your own life of peace

Your own life of reality

Leave pride behind

Forget it never existed.

Changers

Help is a useless offer to make snitches

Same alike a female dog

Approachment to me is a seeming of a Spartan

Spartan life full of discipline

But who you are deep down in the valley of your heart

The water is hard to be transformed

I am full of wonder

How the stone was disintegrated into watery soil

Changers are same as haters

Changers do not fit to be maters

Let joy and peace judge you

Let your behavior be unknown

Be like the first person to reach the sun

Let not your behavior be ancient

Curses are promoted while blessings are hard to find.

Chill down

Hit out and please chill

Hit fast and please chill

Being at ease is what I now seek

Life like flying colors

My heart feels in terror

Horried by fake commodities

A bad start promotes a good ending

When joy comes it accommodates you in joy forever

Pump, pump and pump

My far away ears can record such tragedy

I have flaws from top to bottom

Comforters come and try to make the river flow

From bottom to top but the water ain't endless

Chill down

Chances come and go

But it is once chance

Opportunities fly like miracles

They land on a faithful man.

Leader

Being a good leader is a great privilege

It is gradually approved in a great obstacle

Firmness like the struggling sun needs to be supported

Leadership is like raising children at a kindergarten

But leading needs to be done in the interior

Exterior is made of word and dishonest

Leadership needs a good protocol

Protocol when tackled first it offers good price

Being serious, precise and loving are characters of a good lion

Not just a lion

A lion in the royal seat

Leadership, leader, leading

This is what a good nation seek

Day after day in all same way

Let us lead

Let us be leaders of tomorrow.

Thanks to you

My eyes are open

My brains are bright

What I sought I found it

All packed in an oasis

After a long struggle of heavy sweat

My eyes can see

My brain can think

Knowing you are beside me I feel comfortable

Thanks to you Lord

The sunlight lit my forehead

Don't let me down

Don't forsake me

Thanks to you Lord

Now hold my hands tightly

Not to fall into hands of evil and temptation

Thanks all to you

What I asked you gave me

Your presence is what I sought

My soul got it

My brains wanted to keep on thinking about it

So it is.

My love to

Roads flow beautifully but my heart pounds for you

My love to you will never fade

Your face and body are in my mind

What can I do to reach you?

I see you hands around me

Around my chest through my shoulders to my back

This close contact in my heart makes me feel like reaching

I know the sun will rise

What I revy to do will be a fulfillment

My love to you.....

Your sweet voice comforts my dearest heart

I can't seek help for my love to you

Enormous like the Pacific Ocean

With company of happiness and brighter future waves

In a twin song combined to sooth our love.

Thinking of you

My mind in and out because of you

Concentration is what I need to be blessed with

The sun coming in

The flowers blooming

That's how my action adores

I move gradually trying to reach you

I now you smile

The same way my heart opens to the sunrise

There is half moon but I would struggle to climb

Than to miss a chance

My love will reach to its destination

It will be like unlocking a door of peace and joy

Thinking of you

My heart pound in course of heart attacks

Whether I will win the tragedious adventure

I know love will be the leader.

Am alone

Far in an invincible island is what I feel

Seas waving swiftly

The breeze cooling but am forbidden

No utterance of words

No gestures of word

Mourning is a continuous frowning in my appearance

Wrinkles in my face support it

I will see the hand my dreams foretell me

One day it will reveal its moves to my very eyes

I wait for the regards from the Great Giver

Am alone

Hold on fast help will come on its way I tell myself

Accompanied by a twin square company.

Fear

To conquer fear is do fear

Fear is what pulls us down

Down to the deepest grave of our hearts

Let us step upon fear

Let it be our greatest enemy

The snake cause transgressions

Because they reproduce themselves into various commodities

Fear, fear

Conquer your deepest thunderfied hailstorm

To conquer it is to face it

With a brave mind and a strengthened feeling

Fear is a rock falling down

That forces you to be a paper in the thin air

If you conquer fear you succeed well in life.

Met again

Had fine all day

All night flying colors are in air

Firing happiness into our souls

Not forgetting our strong joy

All the mind of separation faded before it arrived

Hope favor allocates us again

So that we can play as one with over excitement

Our faces showed the reigning of red

Lime green and purple colors with effectiveness

My wish is for us to meet again

Form a great bondage

Strong such that troops of army will sweat to fail to break it

Restarting everything in life

Redoing everything to satisfy

For the sun to be happy the earth should rotate

So that it appears everywhere

That's what I need.

True belief

Asking without causing echoes

I receive in belief

True belief

Patience pays

Believe in miracles

Miracles in belief

Sought is what I fought to be taught by my superiors

Five percent try gives ninety five percent rewards

Nothing is impossible

Impossible is something

Hard needs to be soft

Soft needs to be medium

Change who you are

Ask for the real you

Don't do what your flesh forces

Try to eat a peanut for many meals

Impossible is possibility

An eye doesn't see itself unless reflected.

Silent joy

Vision of sun rays over buildings

Shadows dancing to the bird's tune in the tree

The way my eyes see these through the door

Is the way my life will be?

Joyous day in day out

What is this?

Silent joy

My heart dance in the interior

But if I showcase it

It will be a whisper to each ear

Prestige is sought out of the gliding eagle

I sought a seat

I sought joy

Now I get what I worked for

Peace in my way accompanied by joy

Nothing can stop me

With my superior eradicator.

My co-life

Hope to see

Hope to love

Hope to laugh

Hope to share stories

These are late comers to the ground situation

Hope is a word that pulls back people

Failure is a servant of hope

The way I loved you

The way I wished you to know me

Would have made me a big expert

But the superior called you to the comfort rest

Instead be happy

Make your soul to be welcomed in the jubilee house

Be welcomed in the eternity house

Maybe there is no other chance to desire

Desire for the always happening unexpected.

Is this how it feels?

Being isolated by different behaviors

Being isolated by types of kinds of people

Life is a tiresome attempt

Peace comes and goes

Sadness comes and goes

The real status is sought but hidden

The cat is difficult to pull out of the small bag

Is this how it feels?

My heart is always at work

My heart is like a running machine in a factory

Though the sun rise

Trial to change the direction it set

But puzzles ring all around like a person

Studying a crocodile on pause

Adopt to feel the kind of life.

It hurts

I can hear your cry echoes through my ears

The eagle is at a distant to the rat on the ground

Both gone due to living beings

Both female

Running thoughts should be freed

Don't let life be a misfortune to you

Every tear rolls down

One day you will see the Lord

Peace will be brought and all necessities

Pray, love, give and be loyal

Everything will be good and best.

A different feeling

Yesterday is not today

Today is not yesterday

My inner eyes can see it without rareness

Walking on the clouds seeming as the floor

Difference is never the same

Asking wrongs things instead of rights

Right things that brings success

Change gives fast heart beats

Change is unknown

Awesome or awe

Like on a gravy water flow

All rights reserved is what my life seeks

Open eyes of the heart

I would like a type of a microscope

I want to look on the ways I take.

Blind dove

Ironically I start

I can see clearly

Clearly like beautiful of ugly in firmament clung of my heart

Looking away I can't see the beauty

Looking out I see the snake

Full of stationary blood

Love to you is nothing I mean

I'm a blind dove

Blind in what I can't see

Our hearts will be soon bound together

Pound together as alike peas

My eyes are opaque

They seek clearness from you

Literally I say

Your love is my love

My heart and soul will be at rest once I find you

You are the meaning to my parable

Lead me into the pathway of your heart

Life, success, honour and love

This is what I see straight in your eyes.

Zimbabwean Girl

Hard like elephant skin

Light like a mango burnt by sun

Your mole on your face

More black

More black beauty

Zimbabwean girl

Bright smile with glittering joy and love

Small admirable lips

Sweet in sight and taste I guess

Ooh Zimbabwean girl

Smooth movement

Great shape

Soft delicate everything

You give joy to the saddened

Love highlights itself on your forehead

It's freely administered

Proud of whom you are

Interested into being someone more

Be all and live on a good throne

My Zimbabwean girl

As sweet as an overdue pineapple.

Leadership

Be a lion and live a brave life

A group of sheep led by a lion

The group is strong

It will defeat a group of lions led by a sheep

Leadership is the essential status that can procrastinate

Leadership is nothing without wisdom

When a female lion hunts it needs energy

When a leader leads he/she needs wisdom

Before leading know your own way

Intake wisdom to gain continuous success

Lead not from front

Lead not from back

Do lead in the midst

Leadership doesn't account age

Leadership account wisdom

Leadership is a privilege not a must

Do not fight for leadership

The night is yet to end

The morning is soon to come.

Loving myself

Peace was what the springbok needed

Peace is what was sought and found

All thoughts were reserved

Didn't acquire for a change

The ocean got awakened

Action was unstoppable

Loving myself

Peaceful because thoughts were reserved

Not reversed into failure

I can approach a sanctuary of lions

I can lease with them

Joining others intakes dying with others

Being myself makes me go on loving myself

It will always be me

Me myself and I till heavens see me through in my time.

Silence

Silence is greatest of all

Silent like a grave

So in silence I won't utter any words...

Is it?

Is it?

I feel you

I hear you

Who are you?

The right one

Show me the right one

Am I the one?

Yes am the one

Show me

To satisfy me

My vision is my mission

The provision is in definition

Life has to be great life of sensation

I love it

If it is you.

King

Shinning bright

Looking brilliant

Dressing awesomely

What else?

He is respected

His entire rule is a great success

Amongst people he is a person

As a man who intake all men

Step by step you feel his glory

Light shine up high as he walks in

He is the greatest

He is the giver

What more than a characterful king?

Is it you? (I can see it)

Your smile makes me confused

Is that love is see in your eyes?

Is it deep love that beats on your forehead?

Instead of beating on your left chest side

Your face shines like the beach sun

I need some sunglasses

Your voice makes me feel like singing the best artist's song

Your smile lightens my mind

It refreshes my soul

Hope God will make you mine

Let it be His will.

God chosen

Troubles up and down

Sunrise till sunset

Reconciliation comes after long ancient days

Close for a leap year and out like a blank page

Let's be us

More of us and less of what we want to be

Let's fall up

Every time should not get to waste

Let's finish what we where

Let's finish what we want to be

This is God chosen.

The way I want

You, silent, smiling, loving, caring and respecting

All ought to be given my heart

Release to thy like the flood gates

All thoughts now reserved

What should my mind put into thought?

Shall my mouth utter any words?

No worries

My art neither yours

Bring back neither yourself to me.

Academics

Rationing blah blah

One as to three

All ancients are school days

Months move on books being the greatest pal

Academics

The way of life

All feelings come

Put them into action

There you go

Off you come

Off you take off

Academics

The fundamental resource of life

The sources of knowledge, happiness and peace

Desires are started to be fulfilled

Started by a million kilo journey

Steps of great academic excellence.

Poetry

Life is poetry

Poetry is life

What else?

Skies testify

Birds of sky sing in jubilee

My photographs are shooting out to the sky

Audience are in joy

Let me introduce the first, second and third phenomenal

I'm introducing him to the system of great accordance

All lizards should shake their tails

Into terror of fear

Into fear of terror.

...Visuals...

Out of the transparent

The black back visuals

Steam floating

Walking like it is on journal mission

Dark in colour as a war day

Guns banging like pom-pom

Physical evidence is just more hidden

Letting the dust rise from air to air

Rise like chaffered air molecules

The roar sound sounds like soldiers marching to liberation

Thoughts black me out back again

Shocked with great mountains in front

Boxed flat steel in presence

Feeling tired

Eyelids.

Living God

Life is all about the Living God

Like the skies

Light and indigo

Life is a privilege

Like the moving clouds

White and dark

Like the mountains

Green and sandy gray

Life is a complecatable assurance

Life is complex

Complexibility can be reduced by the Living God

Stay watching

Stay praying for good

Love of God will greatly intervene

Keep on praying for the living God to be glorified.

Who I, now

Roarer of the roar advanced

Greatest, fearless and indestructible

My path to foreign is like a flame of paths

What trial?

What's wrong to death?

Social laughter of joy in my heart

Later all this will be worthy

All heights will be in me

I will be in all heights

Who?

I say in squares who?

This is my starter

This is my beginner

He knows the omega

Let birds of the sky ululate in surprise and joy

Let anointing come running over me

All wisdom reserved

All joy reserved

Just for me

Peace be to all angels on earth.

Anything

Love, joy, trees, life, honour, wisdom

Anything is itself

Any is many

Bring is nothing

Anything is part of life

Anything is part of surviving

Life without underestimation

Declare success and anything

Pick up anything in life to succeed

Anything is a priority of many things.

Me as a tree

Prick is what I have

I hold all lives

An organism saver

Survival of trouble and temptation

I have all it holds

I need the sun too

But am the second son of the sun

Evergreen

That's my effect to rain

All strong in different species

All rights reserved

All I always did and do is produce

Produce and reproduce

I am sought by all kinds

Me as a tree

Planted to produce fruits, medicine and many other things

With lack of these people weep

Gnash in hunger

I am respected

I am the boss

I am the tree.

Am done

To you I got the cat out

Of the bag and am done

My part I have done

I have forgave and

Am ready to forget

It's now your role to touch

The snake by the head than

By the tail

Fight might give tight terror

But to defeat fear is to do fear

My pounds in three words

I am done.
